

# PROTEST MAGAZINE

## THE COMMUNICATION ISSUE

Protest Magazine is a group anthology and portfolio created by marginalized women. Protest is the sum of women's partnership, one platform for many voices.

Protest's second issue concentrates on communication, expression, and education. The craft of communication shapeshifts and transforms based on the artist. We're looking for written and visual art created by women-identifying, people of color to make the Communication Issue whole.

---

Below are some areas to meditate on, use the topics below as inspiration. We're looking for your personal interpretation of any and all matters related to communication:

- +African American Vernacular English
- +Prayer and otherworldly communication
- +Self-advocacy and mental health
- +Cultural clothing and other aesthetics
- +Modern tribalism and social networks
- +Multilingualism and cultural identity
- +Grassroots journalism and social media
